Financial Policy & Authorizations

- As a condition of your treatment by this office, financial arrangements must be made in advance. The practice depends upon reimbursement from the patient for the costs incurred in their care and the financial responsibility on the part of each patient must be determined before treatment.
- All emergency dental services or any dental services performed without previous financial arrangements must be paid for at the time services are performed. We accept MasterCard, Visa, American Express, Discover, cash, and checks. If you are in need of an extended finance option, we work with CareCredit, which offers short term interest free programs or longer terms with an interest bearing revolving charge designed to meet your treatment plan needs on approved credit. Ask for details.
- If you have a Dental Plan please know that it is designed to help you pay for a portion of the cost of your dental care. Therefore, patients who have dental insurance should understand that all dental services provided are charged directly to the patient and that he or she is personally responsible for payment of all dental services. Our office will prepare insurance forms and assist in obtaining payment from your insurance company on your behalf and will credit any such payments to your account. Please understand our dental office cannot render services on the assumption that our charges will be paid by your insurance company.
- Insurance eligibility and benefits quoted are not a guarantee, they are subject to change. We will provide you with an estimate of your co-payments and deductible based on your insurance coverage which is payable at the time of your visit. This **ESTIMATE IS NOT A GUARANTEE** of the final amount of benefits to be paid by your insurance company. The final amount of benefits to be paid will be determined by your insurance company only after they receive the dental claim. If you have any questions regarding your dental benefits please contact your employer or insurance company directly. Dental benefit plans will never pay for all of your dental care. It is only meant to assist you.
- The amount your plan pays is determined by the agreement negotiated by your employer with the insurer and by how much your employer contributes to the plan.
- As a service to you, we will submit your dental claims to your insurance company. Keep in mind that dental plans are designed to share in the cost of your dental care, not to completely pay for those costs. Please ask for "Why Doesn't My Insurance Pay for This?" pamphlet at the front desk which will answer any other questions you may have about dental insurance
- I further agree to pay for all services rendered regardless of anticipated insurance benefits within 30 days of the date of service and agree to pay all reasonable attorney fees or collection costs associated with non-payment of an account balance.
- A service charge of 1½% per month (18% per annum) on the unpaid balance will be charged on all accounts exceeding 60 days regardless of anticipated insurance payments.
- I authorize the release of any information including the diagnosis and records of treatment or examination rendered to either myself or a dependent to my insurance company and/or healthcare practitioner. I authorize and request that my insurance company pay directly to the doctor insurance benefits otherwise payable to me.
- **I have read and understand the above Financial Policy and Authorizations. I acknowledge receipt of this office's Notice of Privacy Practices.**

Informed Consent for General Dental Procedures

- You, the patient, have the right to accept or reject dental treatment recommended by your dentist. Prior to consenting to treatment, you should carefully consider the anticipated benefits and commonly known risks of the recommended procedure, alternative treatments, or the option of no treatment.
- Do not consent to treatment unless and until you discuss potential benefits, risks, and complications with your dentist and all of your questions are answered. By consenting to the treatment, you are acknowledging your willingness to accept known risks and complications, no matter how slight the probability of occurrence.
- It is very important that you provide your dentist with accurate information before, during, and after treatment. It is equally important that you follow your dentist's advice and recommendations regarding medication, pre and post treatment instructions, referrals to other dentists or specialists, and return for scheduled appointments. If you fail to follow the advice of your dentist, you may increase the chances of a poor outcome.
